

LOOP Block 60 NB

KOHLHOFF **LOOP®** Blocks are compact and lightweight multi purpose snatch blocks fastened with a loop. The short standard loop minimizes the damage to deck, hull or superstructure. Longer loops are available to extend the range of use and allow the block to swivel. Due to its construction the loops always remain easy to unfasten even after full loading. KOHLHOFF **LOOP®** Blocks are weight saving, compact sized and easy to use.

KOHLHOFF **LOOP®** Blocks are available with plain bearings or ball bearings. The ball bearing blocks in fact have a two stage bearing. At lower loads the ball bearing minimizes friction, at higher loads the plain bearing comes into effect. The loops are covered with extra Dyneema® to provide a smooth surface and to increase the abrasion resistance. They are terminated by a diamond knot or a pin.

LOOP® Block LB-60-4BB on a Hanse 630 Race.

2:1 Main Halyard Block LB60-3 on a JV52 after three years of use.

LOOP® Block 60 with Ball Bearing on a backstay bridle

Product No.	Description	Sheave	Weight	Rope ø	MWL
PLAIN BEARING					
LB45-3	LOOP® Block 45 with Knot	Acetal	88 g	up to 12 mm	1500 kg
LB60-3	LOOP® Block 60 with Knot	Acetal	206 g	up to 16 mm	3000 kg
BALL BEARING					
LB45BB-4	LOOP® Block 45 with Pin	Acetal	96 g	up to 12 mm	1500 kg
LB45BB-4REEF	LOOP® Block 45 - w. longer Loop Pin	Acetal	96 g	up to 12 mm	1500 kg
LB60BB-4	LOOP® Block 60 with Pin	Aluminium	243 g	up to 16 mm	3000 kg
LB60BB-4REEF	LOOP® Block 60 w. longer Loop Pin	Aluminium	243 g	up to 16 mm	3000 kg
LB80BB-3	LOOP® Block 80 with Knot	Aluminium	608 g	up to 22 mm	5000 kg
TORLON NEEDLE BEARING					
LB60NB-4	LOOP® Block 60 with Needle Bearing and Pin	Aluminium red anodized	266 g	up to 12 mm	2000 kg
