

MAX

SAILMON 

Go faster, sail higher & improve your sailing skills with MAX! MAX is the number one training & racing instrument in the market.

MAX is designed for those who view each sailing session as an opportunity to learn. Every sailor has specific needs to improve their Sailing, MAX offers everything you need to become a better sailor in one device.

Start better

Ping the line, and the #1 GPS in town will make you hit the line on time and guide you to the favorite side of the line.

Sail faster

In every race and line-up speed is King. With MAX you get the best GPS speed on the market with 25hz updates. Squeeze out that extra speed and understation what makes your boat fast.

Sail higher

Make sure you sail on lifts and tack on headers. Our hear/lift indicator helps you make the right decision, so you become better every time you go out sailing.

Instant reply

Use the Sailmon app to improve your sailing and compare numbers with your training parters and competitors, but never let the truth get in the way of a good story.
